Subject: ASEC Partner Update: Finding a Stock Winner First Step Screening

Greetings, all!

The following update comes from ASEC Mission Partner: [AAII \(American Association of Individual Investors\) DC Metro Chapter](#).

John Bajkowski

President, American Association of Individual Investors

FINDING A STOCK WINNER: FIRST STEP SCREENING

While successful money managers may differ in their investing philosophy, a disciplined approach to selecting and pruning investments is a common characteristic. John Bajkowski, president of AAI, will show how computerized stock screening systems can be used to reduce a large universe of stocks into a manageable group of prospects that match your investment style. He will walk through the process of developing and implementing both a value and a growth screen and highlight which screening filters work and those that do not help to select winning stocks.
