## WISER Forum - You're Invited!

### The Millennial Perspective: An Intergenerational Discussion on Retirement Solutions

*A Forum hosted by the Women's Institute for a Secure Retirement*

This annual WISER forum will feature the iOme Challenge winning team of college students who will discuss their advisory paper in response to this year's challenge question. The [iOme Challenge](#) encourages students to challenge status quo thinking about the current state of retirement and propose viable policy recommendations. This year's teams were asked how the private retirement system can be re-imagined to accommodate the needs of those in traditional work arrangements as well as the changes in the work-life patterns of the Millennial generation.

A keynote speaker and a panel of administration officials and congressional staff leaders will also discuss current legislative proposals. A reception will follow honoring the iOme Challenge winners.
